The Couture Collection [★]

Reflecting on a bygone era of elegance and poise, Proportion London reinvents Haute Couture grooming, with the stylish Couture Collection. A luxurious portfolio of feminine bust-forms and accessories, this collection is designed to impart the final word in feminine chic.

Blending supple embossed leathers and opulent satins, crisp crepe along with pinky copper metalwork and immaculate tailoring, Proportion London have created a fantastic kit of parts, allowing the skilled visual merchandiser freedom to create an incisive yet understated vision of femininity.

Featuring a slender, yet curvaceous 85, 61, 89cm [33 1/2", 24", 35"] figure, with defined collar and hipbones, Couture also boasts a taut stomach and pert bottom. The body shapes and accompanying head have been finely honed to reveal a subtle yet distinctively featured face and silhouette that are further enhanced with a layering of the clients chosen covering. Finished with stencil detailing, custom covered neck-caps or copper leafed woodwork and a wig to add further character, this collection has an undeniable cachet of fashionable wit about it!
